

TRAN THANH DAT

Junior Frontend Developer

Hanoi, Vietnam | tranthanhdat4321@gmail.com | 0984 427 144 | github.com/IntheNameOfGOD2806

PROFESSIONAL SUMMARY

Dedicated and detail-oriented Junior Frontend Developer with a strong foundation in the ReactJS ecosystem (NextJS, TypeScript) and CI/CD workflows. Experienced in building responsive web applications, configuring Docker environments, and optimizing deployment pipelines during tenure at BKAV Corporation. Eager to leverage technical skills to build high-performance user interfaces.

TECHNICAL SKILLS

- **Frontend Development:** ReactJS, NextJS, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, TailwindCSS, Ant Design (AntD), Material UI (MUI), Redux Toolkit, Zustand.
- **Backend & Database:** NodeJS (ExpressJS), Java Core, MongoDB (Mongoose), MSSQL.
- **DevOps & Tools:** Docker, Rancher, GitLab CI/CD, Linux Shell, SSH, WinSCP, Git/GitHub, WebSocket (Socket.io).

WORK EXPERIENCE

BKAV Corporation

Frontend Developer

Hanoi, Vietnam

Aug 2024 – Present

- **Vietnam Intellectual Property Office (DVC):** Developed dynamic forms and responsive UI components for the public service portal using **ReactJS** and **AntD**. Configured **Docker** containers and **GitLab CI** pipelines to automate deployment to staging servers.
Access Link: dichvucong.ipvietnam.gov.vn
- **Speech To Text Web App (BKAV AI):** Built audio recording interfaces and integrated **WebSocket** for real-time, low-latency text transcription. Optimized UI performance for continuous data streaming.
Access Link: htm.democloud.xyz/boc-bang-AI
- **BKAV Hardware Solution (BHS):** Implemented Server-Side Rendering (SSR) using **NextJS** to enhance SEO and initial load speed. Converted Figma designs into responsive layouts with **TailwindCSS**.
Access Link: bhs-bkav.com
- **H2Q Solution:** Acted as Frontend Developer for the digital transformation platform. Configured **CI/CD** pipelines, built **Docker** images, and managed application deployment using **Rancher**.
